**Clarksville Gas and Water
Sewer Rehab Work Scheduled for July 8-12, 2013**

Ongoing sewer rehab contract work in North Clarksville will continue next week, July 8-13, 2013, on Hallbrook Drive and Virginia Terrace.

Clarksville Gas and Water contractors notify customers in advance by letter and door hanger of the upcoming work to be performed on their street and how they can help with the process. Since the rehab work requires temporarily sealing of customer sewer connections to the main line, residents are asked to limit water and toilet use or any activity that would send water into household drains and sewer lines. This practice will help avoid sewer backups in homes while the necessary work is performed.

For further information, please contact Y'hanna Perez-Ortiz, P.E., Civil Engineer, at the Clarksville Gas and Water Engineering Department, 931-645-7418.
