

**EROSION PREVENTION & SEDIMENT CONTROL (EPSC)
PLAN FOR SMALL LOTS DISTURBING <1 ACRE**

Building Permit No. _____

A building permit WILL NOT BE ISSUED until this form is filled out completely.

Please choose the most appropriate answer.

For single-family residential sites affecting <1 acre, choose one of the following options:

The most appropriate Erosion Prevention & Sedimentation Control (EPSC) plan, from the back side of this form, is option ___ or a combination of options ___ & ___.

The City of Clarksville requires all new land development to establish **water quality buffers** along all streams, wetlands, ponds and other water bodies within the City's jurisdiction. More information on buffers can be found in Volume 1, Chapters 5 and 10 of the City of Clarksville Stormwater Management Manual.

Are water quality buffers required on this site? Yes No

If yes, indicate (by drawing) the water feature and the associated buffer on the option chosen on the next page of this form.

**PERSON(S) AND FIRM(S) WHO ARE THE RESPONSIBLE PARTIES
FOR THIS LAND-DISTURBING ACTIVITY**

| BUSINESS NAME: _____ | SUBDIVISION NAME/LOT #'s: _____ |
| ADDRESS/PHONE/EMAIL: _____ | TDEC PERMIT TRACKING NUMBER(S): _____ |

The City of Clarksville Storm Water Ordinance requires that anyone conducting land-disturbing activities must prevent sediment from leaving the site (Ord. No. 65-2003-04, § 4, 3-4-04). Land disturbing activity means those activities that modify or remove natural or manmade ground cover and result in soil being dislocated from its natural location.

Failure to install and maintain EPSC measures may result in violations and/or fines.

A permit issued by the Building and Codes Department does not relieve applicant of responsibility for obtaining any additional permit coverage required by the U.S Corp of Engineers, Tennessee Department of Environment and Conservation, U.S. Environmental Protection Agency or other state and federal agencies. Permits issued by the Building and Codes Department are contingent upon the issuance of applicable federal and state permits. The Building and Codes Department may suspend or revoke a building permit immediately upon notification that state or federal permits were denied or applications were not made. A stop work order will be issued immediately upon notification that state or federal permits were denied or applications were not made.

The undersigned hereby certifies that he/she has read this form in its entirety and is aware of the stated requirements of the City of Clarksville Stormwater Management Ordinance and Stormwater Management Manual. The owner must comply with all regulations and policies provided in these documents.

EROSION PREVENTION & SEDIMENTATION CONTROL (EPSC) PLAN OPTIONS FOR BUILDING PERMITS

INSTRUCTIONS: Identify one or any combination of letters for the EPSC schematic that best describes the measures that will be used on this property during construction. If Options A-F do not adequately reflect site conditions, add flow lines and EPSC measures to Option G, as appropriate.

Legend

Sediment barrier, such as silt fence or straw wattles
Stabilized construction entrance
Direction of Flow (points downhill)

If Options A-F do not adequately reflect site conditions, add flow lines and EPSC measures to Option G, as appropriate.

| Option | A | B | C | D | E | F | G |
|----------|---|---|---|---|---|---|---|
| Lot #(s) | | | | | | | |
