RESOLUTION 6-2016-17 Approving a Tax Increment Financing Agreement with Montgomery County and the Clarksville-Montgomery County Industrial Development Board

Councilman Garrett made a motion to adopt this resolution. The motion was seconded by Councilwoman McLaughlin.

Councilman Allen said the church he pastors was in the proposed TIF District and City Attorney Lance Baker determined he had no conflict of interest in voting on this matter.

Councilman Redd made a motion to change this document from a resolution which would require one vote to an ordinance which would require two votes. Because of the lack of public notice, Mayor McMillan ruled this motion out of order.

During discussion, Mr. Baker said the Industrial Development Board created a subcommittee of non-IDB board members, to review applications and recommend projects to the IDB for consideration.

Councilman Lewis stated the City had no representation on the IDB. In response to Councilman Burkhart's question regarding the possibility of a developer defaulting on a bank loan for a TIF project, Mr. Baker said responsibility of parties involved would be determined by a project agreement approved by the IDB. Councilman Redd objected to giving private developers tax dollars. Councilwoman Guzman and Councilman Allen expressed support for the tax incentive program for downtown development.

There was no objection to Councilman Grubbs request to go out of session to hear comments from Community Development Director Keith Lampkin. Mr. Lampkin said existing community development funds could assist in revitalizing downtown if the proposed TIF met federal guidelines.

Councilman Garrett made a motion to revert to regular session. The motion was seconded by Councilman Alexander. There was no objection.

Councilman Grubbs said the City could create a separate funding program using Community Development grants. Councilwoman McLaughlin said the IDB had been very successful in negotiating significant industrial developments. Mayor McMillan said all recommendations from the City for the proposed TIF agreement had been rejected by the IDB or by Montgomery County officials.

Mayor McMillan made a motion to postpone this vote to the next regular session to allow a proposed amendment to be drafted. The motion was seconded by Councilman Redd. Councilman Allen called for the question. The question was seconded by Councilman Redd. The following vote was recorded:

A RESOLUTION EXPRESSING SUPPORT FOR MILITARY AND VETERAN CAREGIVERS

WHEREAS, the series of wars in which our nation has been engaged over time since World War II, has resulted in 5.5 million military and veteran caregivers who are parents, spouses, siblings, and friends, caring for those wounded, ill, or injured who have served our nation, as documented by the 2014 Rand study commissioned by the Elizabeth Dole Foundation; and

WHEREAS, the above referenced project is described as SR-76 Intersection at Denny Road & Rotary Park Drive; and

WHEREAS, the City of Clarksville agrees to cooperate with TDOT as set forth in this proposal so that the general highway program may be carried out in accordance with the intent of the Tennessee General Assembly.

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF CLARKSVILLE, TENNESSEE:

That the Clarksville City Council hereby accepts the proposal, attached hereto as Exhibit A, from the Tennessee Department of Transportation for State Project No. 63022-2207-94, Federal Project No. HSIP-76(96), intersection improvements at Denny Road & Rotary Park Drive.

ADOPTED:

PROPOSAL

OF THE DEPARTMENT OF TRANSPORTATION OF THE STATE OF TENNESSEE TO THE CITY OF CLARKSVILLE, TENNESSEE:

The DEPARTMENT OF TRANSPORTATION of the State of Tennessee, hereinafter "DEPARTMENT", proposes to construct a project in the City of Clarksville, Tennessee, hereinafter "CITY", designated as Federal Project No. HSIP-76(96), State Project No. 63022-2207-94 , that is described as "SR-76 Intersection at Denny Road/Rotary Park Drive LM 14.1 to LM 14.2 in Clarksville", provided the CITY agrees to cooperate with the DEPARTMENT as set forth in this proposal, so that the general highway program may be carried out in accordance with the intent of the General Assembly of the State.

Accordingly, the parties agree as follows:

1. That in the event any civil actions in inverse condemnation or for damages are instituted by reason of the DEPARTMENT, or its contractor, going upon the highway right-of-way and easements, and constructing said project in accordance with the plans and as necessary to make the completed project functional, it will notify in writing the Attorney General of the State, whose address is 425 Fifth Avenue North, Nashville, Tennessee, 37243, of the institution of each civil action, the complaint and all subsequent pleadings, within ten (10) days after the service of each of the same, under penalty of defending such actions and paying any judgments which result therefrom at its own expense.

2. The CITY will close or otherwise modify any of its roads, or other public ways if indicated on the project plans, as provided by law.

3. The CITY will transfer or cause to be transferred to the DEPARTMENT without cost to it, all land owned by the CITY or by any of its instrumentalities as required for right-of-way or easement purposes, provided such land is being used or dedicated for road or other public way purposes.

4. Where privately, publicly or cooperatively owned utility lines, facilities and systems for producing, transmitting or distributing communications, power, electricity, light, heat, gas, oil, crude products, water, steam, waste, storm water, not connected with highway drainage, and other similar commodities, including publicly owned facilities such as fire and police signal systems and street lighting systems are located within the right-of-way of any road or other public way owned by the CITY, or any of its instrumentalities, the CITY agrees that it will take any action necessary to require the removal or adjustment of any of the above-described facilities as would conflict with the construction of the project. But the foregoing may not be a duty of the CITY since it shall become operative only after the DEPARTMENT has been unsuccessful in its efforts to provide for said removals or adjustments for the benefit of the CITY.

The foregoing does not apply to those utility facilities which are owned by the CITY or one of its instrumentalities, it being understood that the CITY has the duty to relocate or adjust such facilities, if required, provided the CITY is notified to do so by the DEPARTMENT with detailed advice as to this duty of the CITY.

5. The CITY will maintain any frontage road to be constructed as part of the project.

6. After the project is completed and open to traffic, the CITY will accept jurisdiction and maintenance such parts of any existing DEPARTMENT highway to be replaced by the project, as shown on the attached map.

7. The CITY will make no changes or alter any segment of a road on its road system that

lies within the limits of the right-of-way acquired for any interchange to be constructed as part of the project and will not permit the installation or relocation of any utility facilities within the right-of-way of any such a segment of one of its roads without first obtaining the approval of the DEPARTMENT.

8. No provision hereof shall be construed as changing the maintenance responsibility of the CITY for such part of the project as may presently be on its highway, street, road or bridge system.

9. It is understood and agreed between the DEPARTMENT and the CITY that all traffic control signs for the control of traffic on a street under the jurisdiction of the CITY and located within the DEPARTMENT's right-of-way shall be maintained and replaced by the CITY.

10. When traffic control devices for the direction or warning of traffic, lighting of roadways or signing, or any of them, which are operated or function by the use of electric current are constructed or installed as part of the project, they will be furnished with electricity and maintained by the CITY.

11. If, as a result of acquisition and use of right-of-way for the project, any building and/or structure improvements become in violation of a CITY setback line or building and/or structure requirement, including, but not limited to, on-premise signs, the CITY agrees to waive enforcement of the CITY setback line or building and/or structure requirement and take other proper governmental action as necessary to accomplish such waiver.

12. If, as a result of acquisition and use of right-of-way for the project, any real property retained by any property owner shall become in violation of a CITY zoning regulation or requirement, the CITY agrees to waive enforcement of the CITY zoning regulation or requirement and take other proper governmental action as necessary to accomplish such waiver.

13. The CITY will prohibit encroachments of any kind upon the right-of-way and

easements for the project.

14. The CITY will prohibit the servicing of motor vehicles within the right-of-way and easements for the project.

15. The CITY will obtain the approval of the DEPARTMENT before authorizing parking on the right-of-way and easements for the project and before installing any device for the purpose of regulating the movement of traffic.

16. The CITY will not install or maintain any device for the purpose of regulating the movement of traffic on the roadway except as warranted and in conformity with the Manual on Uniform Traffic Control Devices.

17. The DEPARTMENT will maintain the completed project if it is classified as full access control (i.e. a project which has no intersecting streets at grade), and it will maintain the pavement from curb to curb where curbs exist or the full width of the roadway where no curbs exist on non-access control projects. The CITY agrees to maintain other parts of non-access control projects.

18. If a sidewalk is constructed as a component of this project, the CITY shall be responsible for maintenance of the sidewalk and shall assume all liability for third-party claims for damages arising from its use of the sidewalk or premises beyond the DEPARTMENT'S maintenance responsibilities as set forth in section 15 of this Proposal.

19. When said project is completed, the CITY thereafter will not permit any additional median crossovers, the cutting of the pavement, curbs, gutters and sidewalks, by any person, firm, corporation, or governmental agency, without first obtaining the approval of the DEPARTMENT.

20. The DEPARTMENT will acquire the right-of-way and easements, construct the project and defend any inverse condemnation for damage or civil actions of which the Attorney

General has received the notice and pleadings provided for herein.

21. The project plans hereinbefore identified by number and description are incorporated herein by reference and shall be considered a part of this proposal, including any revisions or amendments thereto, provided a copy of each is furnished the CITY.

22. The acceptance of this proposal shall be evidenced by the passage of a resolution, or by other proper governmental action, which shall incorporate this proposal verbatim, or by reference thereto.

IN WITNESS WHEREOF, the DEPARTMENT has caused this proposal to be executed by its duly authorized official on this the ____ day of _____, 2013.
