

**Please Limit Your Water Usage;  
Read Below For Details.**

**Your Sewer Access Will Temporarily Be Shut Off!**

In the next few days, we will be in the neighborhood reconstructing certain sewer service connections in need of repair. BLD Services, LLC is under contract by your local government. BLD Services, LLC repairs sewer service connections without digging up your neighborhood. This helps to preserve your property and minimize any inconveniences. Please bear with us as we repair your sewer system. We apologize for any equipment noise which may be created. While the work is being performed, your sewer service connection may be temporarily affected. **We need your cooperation to avoid backup of sewer water into your residence or business by preventing water from escaping through any drain during the specified time period.**

1. Do not wash clothes or dishes
2. Do not take showers or baths
3. Do not flush toilets
4. Turn off sump pumps which are connected to the sewer service

If any problem occurs with your sewer service during this rehabilitation process, please visit one of our on-site representatives. If you have any questions after completion of the project, please call the local representative listed below, not a plumber.

BLD Services, LLC is sending this handout to provide advance notice before beginning actual work. Please do not use water during the hours of:

\_\_\_\_\_ to \_\_\_\_\_ on \_\_\_\_\_  
Day and Date

\_\_\_\_\_  
Superintendent

\_\_\_\_\_  
Phone No.

For additional questions regarding our process, please visit [www.blldlc.net](http://www.blldlc.net)  
or call our office at 504-466-1344  
Thank you for your cooperation!

### Please Take Note.....

You may detect odors (like plastic or glue) from the new sewer service connections being installed on your street. If you smell this odor inside your home, it is perhaps the result of a dry or broken sewer trap. The purpose of the sewer trap is to maintain a water barrier in the pipe to prevent all sewer odor and sewer gases from entering your home (see figures below).

Pour water (4 liters or 1 gallon) down all floor drains or any rarely used sinks/tubs/toilets to ensure that a water barrier is maintained in the traps. If this does not prevent odors from entering your home, then your trap may require repair and you may need to temporarily place plastic bags filled with water over the drain to prevent the backflow of odors. If you continue to smell odors, please call the BLD Services, LLC superintendent so they may assist you with this problem.

We thank you again for your cooperation, and we are glad to serve your community.
